

## **Additional terms and conditions Green Simplicity**

In addition to the Metaalunie conditions, these terms and conditions apply to agreements between Green Simplicity and the client.

1. The contractor must strictly adhere to the safety regulations that apply to the use of the CO2 installation and the LED lighting. These safety instructions are supplied with the installations. Green Simplicity is not liable for damage suffered by the contractor as a result of incorrect use of the CO2 installation or LED lighting or breach of the safety regulations. The contractor indemnifies Green Simplicity for all third-party claims related to the use of the CO2 installation or LED lighting.
2. Growing crops in a closed growing environment is a delicate process, whereby it is not possible to predict all the effects of the choices and settings made in advance. Green Simplicity is not liable for damage to or destruction of crops as a result of the use of the installations supplied by Green Simplicity, including software and LED lighting. Green Simplicity is furthermore not liable for damage that is the result of advice given by it, including the settings for conducting a test, such as the choice of a spectrum or light intensity in a climate cell or greenhouse, or the creation of a test setup.
